Custom Panel Installations

Some Miele dishwashers do not come equipped with a front panel. These dishwashers are designed to accept a custom door panel supplied by the cabinet maker. Miele has a unique panel integration system which allows the dishwasher to align with the surrounding cabinets.

Width: 17 1/2" (445 mm) in all cases

Thickness: 3/4" (19 mm) in all cases

Height: Determined using the following calculation:

$$\text{Panel Height} = \text{HTC} - \text{CPH} - \text{TKH}$$

HTC = Height to the underside of countertop

CPH = Control panel height (**Note 1**)

TKH = Toe kick height

Note: Control panel height is determined by the height of the adjoining drawers in the cabinets. The height is adjustable between 4 9/16" and 5 7/8" (116-150 mm) with spacer strips provided.

Maximum panel height: 27 1/4" (692 mm)

Minimum panel height: 21 1/4" (540 mm)

Maximum panel weight: 21 Pounds (9.5 kg)

GDU Kit Installations

Miele offers pre-fabricated panels for all integrated units called GDU kits. These panels are designed for various toe-kick heights and include a black plastic toe kick cover.

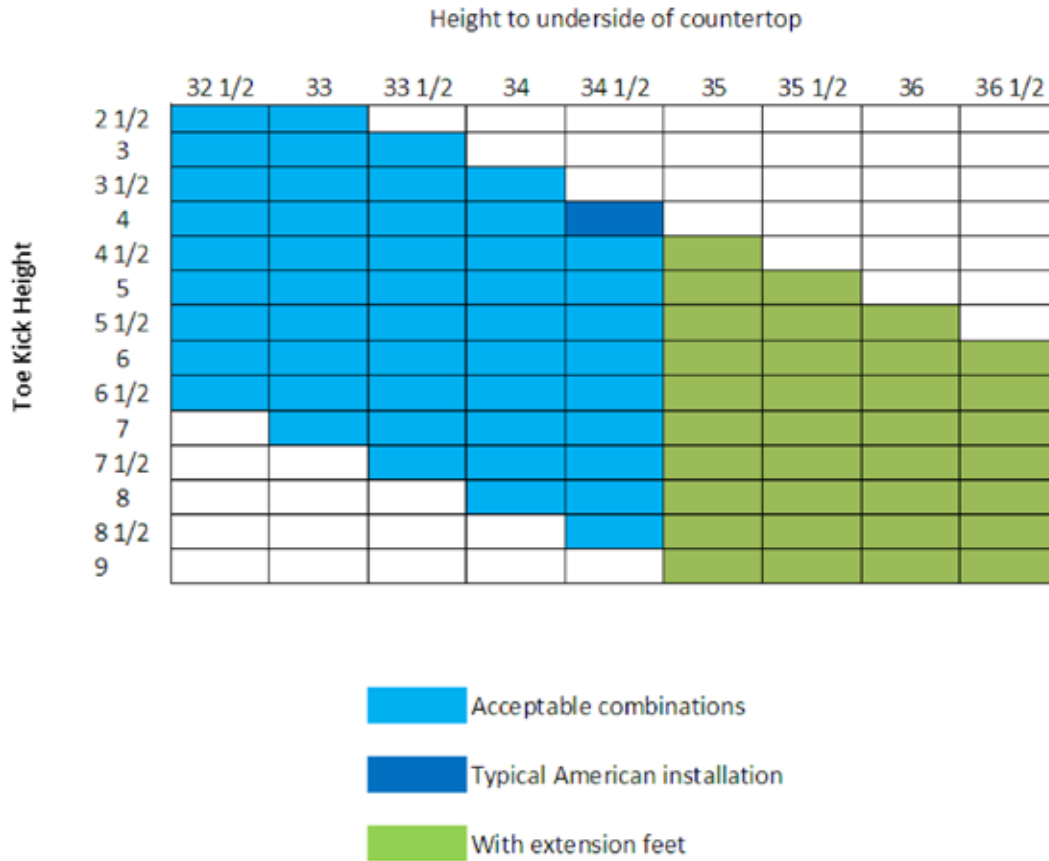

GDU 45/65-1 4" Toekick White/Black
GFV 45/65-1 4" Toekick CleanTouch SS

This GDU accepts a custom insert:
Height: 25 11/16" (650 mm)
Width 17 1/2" (445 mm)
Thick 1/8" (3 mm)

Exposed toe-kick

Drawing is not to scale
