Side-by-Side Merging Kit
KSK 1003

Side-by-side

... without partition

If the appliances are installed directly next to each other (without a partition), they need to be attached together. A heating mat must also be installed. This will help avoid condensation and prevent damages.

... with partition

In this case, you will only need the heating mat from the "Merging kit" to avoid condensation and prevent damages.

HEATING MAT TRANSFORMER
PLUG DETAILS FOR KSK 1003

Location Codes
- KSK 1003- Heating mat connects directly to left-standing appliance

Notes
- Merging kit must be used when combining units
- All Installations must be done in accordance with local codes
FOR FLUSH INSTALLATION

Location Codes
